Being handicapped doesn't have to stop you from achieving your dreams. When Maksim Sedakov from St Petersburg, Russia lost his leg in a car accident and ended up ( **use** ) .....a wheelchair, he was determined ( **prove** ) .....that his condition would not prevent him from doing what he enjoys most. Maksim picked up a passion for wheelchair dancing, participated in dance tournaments all over the globe and even competed in world championships. He continued to trust ( **oneself** ) ..... and his talents. The most important thing is to have ( **confident** ).....in oneself, in one's own ( **able** )....., and not to take it ( **serious** )..... If people sometimes say to you that you cannot do certain things. The ( **achieve** ) .....of Maksim, and others like him, show that regardless of a person's situation, it is still possible to achieve your dream.

**2. Circle the right alternative. (3.5 marks)**

Researchers prove that children, who do not have books at home or do not go to public libraries, are at a huge disadvantage. In recent years, we ( **are noticing / have noticed/ noticed** ) an enormously increasing growth in T.V use. It is true that TV is a useful medium ( **and/ therefore/ but** ) nothing replaces books because books teach you to be able to read to cope ( **of / with / on** ) all aspects of life and civilization. In January, families across Canada will participate in fun activities ( **to / so that/ in order** ) celebrate the family ( **literate / literacy / illiteracy** ) Day to raise the importance of reading and learning. Every year , organizations, schools and libraries coordinate literacy-themed events and public story reading. They insist ( **on / in / that** ) reading ability is like a muscle the ( **less / fewer / more** ) you exercise it , the more you will be able to maintain a developed-reading skill.

**3. Fill in the blanks with 6 words from the box ( 3marks)**

**aware / species / pollution / shortage / trees / growth / die / for**

Water is essential for all the socio-economic development and for maintaining healthy ecosystems. Population ....., pollution and climate change are likely to combine to cause a drastic decline in water supply in the coming decades. Thanks to mass media, most people are .....of the water problem. However, many do not care .....it. They are either indifferent or do not apply what they learn in their daily practices . In any case, it is not just us who need water, but every other .....that shares the planet with us

More than five million people ..... from waterborne diseases each year. The poor are the ones who suffer most. For them, water ..... means long walks to search, high prices to buy it, food insecurity and disease from drinking dirty water.
